

WORLD
chlorine council®

WORLDCHLORINE.COM

WHO WE ARE

- The World Chlorine Council® (WCC), an international organisation, represents the chlor-alkali and chlorinated industries; and works in collaboration with the International Council of Chemical Associations (ICCA).
- Formed in 1993, the WCC works to improve awareness of the benefits of chlorine chemistry; further the practice and understanding of responsible stewardship; and anticipate and respond to relevant health, environmental and public policy issues.
- Through stewardship, research and advocacy, WCC works to ensure that the products and applications of chlorine chemistry continue to be regarded by policymakers and the public as sustainable and commercially viable.

WORLD CHLORINE COUNCIL VISION & MISSION

“Chlor-alkali chemistry is recognized as making an essential contribution to a sustainable world.”

“Be a global forum to promote health, safety, and environmental best practices in order to provide society with the benefits of the chlor-alkali industry.”

GOAL AREAS

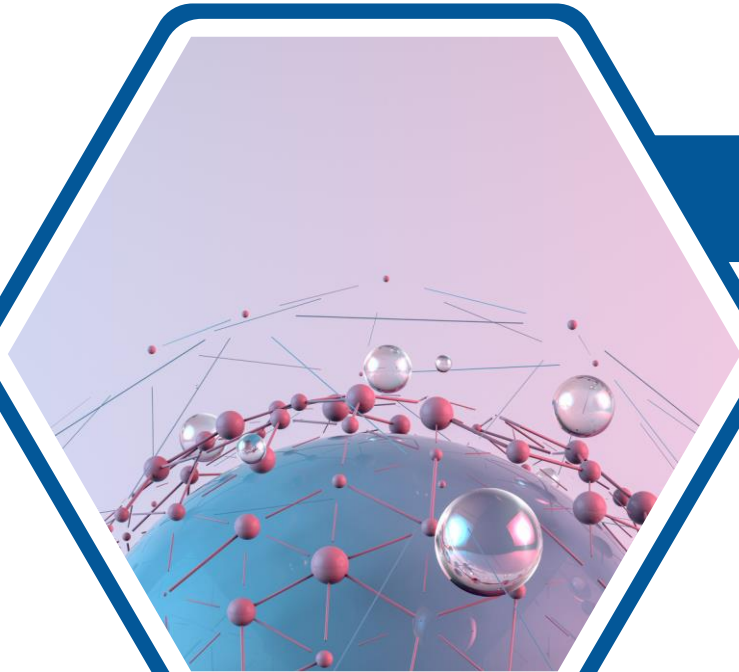

GLOBAL TEAMS

GLOBAL COMMUNICATIONS TEAM

The Communication Team coordinates information, monitors and assesses media coverage in a timely manner with WCC members and major industry associations on issues of importance to chlorine chemistry. Particular emphasis is placed on:

GLOBAL ADVOCACY SCIENCE TEAM

The Global Advocacy and Science Team (GAST) engage in advocacy efforts throughout the world on behalf of the WCC. The advocacy efforts are supported by sound science developed or provided by WCC members and their respective staff.

GLOBAL SAFETY TEAM

Through the WCC safety program, our industry sector strives for continuous improvements in safety performance at facilities worldwide as well as during transportation and use of chlor-alkali-based products.

Water Forum Purpose

- Support UN Sustainable Development Goal 6
- Support the individual member state programs
- As part of our social responsibility provide networking and educational opportunities as we together strive to provide clean water and sanitation to all
